DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 7-9 and 14-16 are rejected under 35 U.S.C. 102(b) as being anticipated by WO0303075.

WO0303075 discloses a powder diffusing nozzle comprising all the featured elements of the instant invention, see Figures 22 and 26-31.

3. Claims 1-3, 6-8 and 14-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Chabert.

Chabert discloses a powder diffusing nozzle comprising all the featured elements of the instant invention, note sidewall 16, passage 62, and deflector 58.

Allowable Subject Matter

4. Claims 10-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
